

Muhammad Bima Anzalta

Indonesia, ID | P: +62 822 5656 2890 | bima77anzalta@gmail.com | linkedin.com/in/bima-anzalta-0nn03517a

PROFESSIONAL SUMMARY

Fullstack Developer with hands-on experience in building scalable web and mobile app using modern JavaScript ecosystems and backend technologies. Proficient in . Proficient in designing end-to-end systems, from backend architecture to frontend implementation, with strong focus on performance, and delivering business value.

Experienced in developing fintech systems, dashboards, and AI-assisted applications. Passionate about creating impactful digital products, optimizing workflows, and integrating modern technologies such as real-time systems, cloud deployment, and automation pipelines.

PROFESSIONAL EXPERIENCE

Burnian Collective

Fullstack Developer - Kreasi Putra Hotama

Aug 2018 - Present

- Built and maintained end-to-end applications (web and mobile) using modern technology stacks
- Developed backend services using Laravel (PHP) and Node.js
- Implemented frontend interfaces using Vue.js, Nuxt.js, and React
- Designed and optimized relational databases (MySQL)
- Integrated external APIs, payment systems, and automation workflows
- Modernized legacy systems into scalable and maintainable architectures
- Managed deployment and server configuration (Nginx, Linux environment)
- Collaborated with cross-functional teams to deliver business-driven solutions

Fullstack Developer - Qara'a

Jun 2023 - Jan 2026

- Developed and maintained fullstack applications (frontend and backend)
- Designed scalable REST APIs and optimized database performance (MySQL)
- Implemented real-time features using WebSocket and Server-Sent Events (SSE)
- Integrated third-party services (payment gateways, authentication, AI APIs)
- Improved system performance and reduced API response time
- Collaborated in agile environments to deliver iterative product features

EDUCATION

Universitas Tanjungpura (UNTAN)

Bachelor's Degree of Management - Faculty of Economics and Business

2019 - 2026

SMK Negeri 7 Pontianak

Software Engineering

2015 -2018

TECHNICAL SKILLS

Front-End: Vue.js, Nuxt.js, React, Next.js, TailwindCSS, SSR

Back-End: Node.js (NestJS / Express), PHP (Laravel), RestAPI, Websocket, Server-Sent Events (SSE)

Mobile: Ionic, Capacitor

DevOps & Tools: Nginx, Linux (Ubuntu), Git, Github Actions (CI/CD)

Others: API Integration (Payment Gateways, Firebase), System Design & Architecture, Real-time Systems, AI / LLM Integration

Achievements

- 1st Place - Pontianak Hackathon 2024
